

N5700 Series System DC Power Supplies

N5741A-49A, N5750A-52A, N5761A-69A, N5770A-72A

Family of Affordable Basic System DC Power Supplies

- 24 models: 750 W and 1500 W output power
- Up to 600 V and up to 180 A
- Small high density 1 U package
- Built-in voltage and current measurement
- Full protection from over-voltage and over-current
- 85-265 Vac universal AC input
- Command compatibility for Sorensen DLM and Xantrex XFR DC supplies
- LAN, USB, and GPIB interfaces standard
- Fully compliant to LXI Class C specification

The Keysight Technologies, Inc. N5700 Series system DC power supplies give you just the right performance — at just the right price — in a compact (1 U) package. This family of affordable 750 W and 1500 W single-output programmable DC power supplies consists of 24 models for simple DC power applications. They provide stable output power, built-in voltage and current measurement, and output voltage and current from 6 V to 600 V and 1.3 A to 180 A.

These economical supplies offer many system-ready features like multiple standard I/O interfaces to simplify and accelerate test-system development for R&D, design validation, and manufacturing engineers in the aerospace/defense, automotive, component, and communications industries.

Small, High-Density Package Saves You Rack Space

The N5700 provides up to 1500 W in a small space-saving 1 U-high, 19-inch-wide package. Its air vents are in the front, side, and rear (not on the top or bottom), so you can stack other instruments directly above or below it to save valuable rack space.

Easy Front-Panel Operation

You can quickly and easily operate the power supply with its rotary knobs and buttons. Using the front-panel controls, you can make coarse or fine adjustments of output voltage and current, protection settings, and set power-on states (last setting memory or factory default setting). The output voltage and current are displayed simultaneously, and LED indicators show the power supply status and operating modes. You can lock the front panel controls to protect against accidental power-supply parameter changes.

Figure 1. Front-panel control knobs and buttons make it easy to use N5700 power supplies.

Extensive Device Protection

To safeguard your device from damage, the N5700 Series power supplies provide over-temperature, over-current, and Over-Voltage Protection (OVP) to shut down the power supply output when a fault condition occurs. They also offer an Under-Voltage Limit (UVL) that prevents adjustment of the output voltage below a certain limit. The combination of UVL and OVP capabilities lets you create a protection window for sensitive load circuitry.

Simplify System Connections

The N5700 Series power supplies come standard with GPIB, Ethernet/LAN, and USB 2.0 interfaces, giving you the flexibility to use your I/O interface of choice today and in the future. The N5700 is fully compliant with the LXI Class C specification.

Figure 2. Built-in Ethernet, USB 2.0, and GPIB interfaces enable easy system connections.

Remote Access and Control

The built-in Web server provides remote access and control of the instrument via a standard browser such as Microsoft Internet Explorer. Using the Web browser, you can set up, monitor and operate the N5700 remotely.

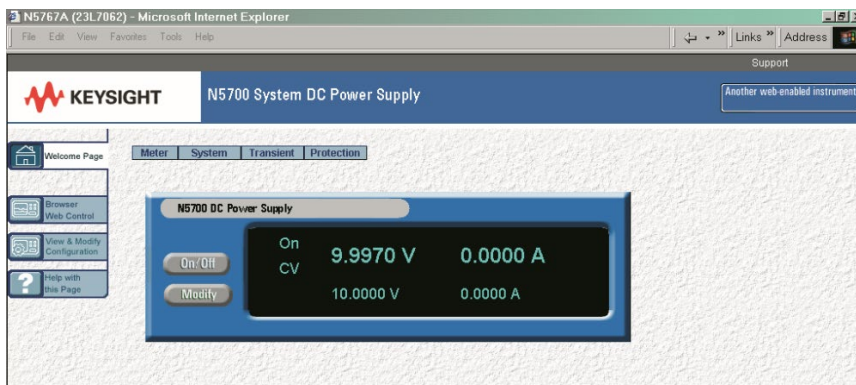

Figure 3. N5700 series web graphical user interface for remote access and control of the power supply.

Easy System Integration and Configuration

To simplify system development, the N5700 comes standard with IVI-COM drivers. The N5700 supports the easy-to-use SCPI (Standard Commands for Programmable Instruments).

Command Compatibility

The N5700 includes a compatibility command set for the Xantrex XFR series power supplies, the Sorensen DLM series power supplies, and the Keysight 603x series power supplies. This simplifies system integration when converting to the N5700. For a comparison of these products, see the application notes:

- Side-by-side comparison: Keysight N5700 Series System DC Source and Sorensen DLM DC Power Supply, AN 1502-1, 5989-1628EN
- Side-by-side comparison: Keysight N5700 Series System DC Source and Xantrex XFR AN 1502-2, 5989-1630EN

Flexible Configuration: Connect Multiple Units in Parallel and Series

Should you need greater output power, the N5700 series power supplies give you the flexibility to connect in parallel up to four similarly rated units for greater output current and connect two similarly rated units in series for greater output voltage (see output terminal isolation information).

Analog Programming and Monitoring

The output voltage and current can be programmed from zero to full scale by either an analog voltage 0 to 5 V or 0 to 10 V or by resistances of 0 to 5 k Ω or 0 to 10 k Ω .

Universal AC Input

All N5700 models have universal AC input so that they can be automatically operated from any AC mains input voltage worldwide. They can be operated from line voltages of 85 – 265 Vac, 47 to 63 Hz, with no switch to set or fuses to change when you switch from one voltage standard to another. They also provide power factor correction.

Rack Mounting

Every unit comes standard with rack-mount ears and handles. In addition, the N5740A rack-mount slide kit makes it easy to integrate an N5700 into a test rack by providing all the necessary hardware to rack-mount an N5700 series power supply in only 1 U of rack space.

Performance Specifications

Unless otherwise noted, specifications are warranted over the ambient temperature range of 0 to 40 °C.

WARNING Shock Hazard

- For models up to 60 VDC rated output, no point on the output shall be more than ± 60 VDC above or below chassis ground.
- For models greater than 60 VDC rated output, no point on the Positive output shall be more than ± 600 VDC above or below chassis ground.
- For models greater than 60 VDC rated output, no point on the Negative output shall be more than ± 400 VDC above or below chassis ground.

Supplemental Characteristics

All Model Numbers

Supplemental Characteristics

Series and Parallel Capability	
Parallel operation	Up to 4 units can be connected in primary/secondary mode.
Series operation	Up to 2 units can be connected in series.
Output Terminal Isolation	
6 V to 60 V units	No output terminal may be more than ± 60 VDC from any other terminal or chassis ground.
80 V to 600 V units	No output terminal may be more than ± 600 VDC from any other terminal or chassis ground.
Store-Recall States	
Volatile memory locations	16
Analog Programming (Of Output Voltage and Current)	
Input signal	Selectable: 0 to 5 V / 0 to 10 V full-scale
Input impedance	Selectable: 0 to 5 k Ω / 0 to 10 k Ω full scale
Interface Capabilities	
GPIO	SCPI – 1993, IEEE 488.2 compliant interface
USB 2.0	Requires Keysight I/O library version L.01.01
10/100 LAN	Requires Keysight I/O library version L.01.01
Web server	Built-in Web server requires Internet Explorer 5+ or Netscape 6.2+
Environmental Conditions	
Environment	Indoor use, installation category II (AC input), pollution degree 2
Operating temperature	0°C to 40°C @ 100% load
Storage temperature	-20°C to 70°C
Operating humidity	Up to 90% relative humidity (no condensation)
Storage humidity	10% to 95% relative humidity (no condensation)
Altitude	<ul style="list-style-type: none">Up to 3000 meters.Derate the output current by 2%/100 m above 2000 m.Derate the maximum ambient temperature by 1 °C/100 m above 2000 m.
Regulatory Compliance	
EMC	<ul style="list-style-type: none">European EMC directive 89/336/EEC for Class A productsAustralian C- Tick markThis ISM device complies with Canadian ICES-001.Cet appareil ISM est conforme à la norme NMB-001 du Canada.
Safety	<ul style="list-style-type: none">European Low Voltage Directive 73/23/EECUS and Canadian safety standardsAny LEDs used in this product are Class 1 as per IEC 825-1
Acoustic noise declaration	Emission directive: <ul style="list-style-type: none">Sound pressure $L_p < 70$ dB(A), At operator position, *Normal operation, *According to EN 27779 (Type Test).

- Schalldruckpegel Lp <70 dB(A) *Am Arbeitsplatz, *Normaler Betrieb, *Nach EN 27779 (Typprüfung).

AC Input	
Nominal input	100 – 240 VAC; 50/60 Hz
Input current 750 W	<ul style="list-style-type: none"> • 10.5 A @ 100 VAC nominal • 5 A @ 200 VAC nominal
Input current 1500 W	<ul style="list-style-type: none"> • 21 A @ 100 VAC nominal • 11 A @ 200 VAC nominal
Input range	85 – 265 VAC; 47 – 63 Hz.
Power factor	0.99 at nominal input and rated output power
Efficiency	<ul style="list-style-type: none"> • 76% – 87% for 750 W units • 77% – 88% for 1500 W units
Inrush current	<ul style="list-style-type: none"> • <25 A for 750 W units • <50 A for 1500 W units
Dimension (Excluding Connectors and Handles)	
Height	43.6 mm (1.72 in)
Width	422.8 mm (16.65 in)
Depth	432.8 mm (17.04 in)
Weight	
750 W	7 Kg (15.4 lbs.)
1500 W	8.5 Kg (18.7 lbs.)

N5743A	System DC Power Supply	12.5 V, 60 A, 750 W
N5744A	System DC Power Supply	20 V, 38 A, 760 W
N5745A	System DC Power Supply	30 V, 25 A, 750 W
N5746A	System DC Power Supply	40 V, 19 A, 760 W
N5747A	System DC Power Supply	60 V, 12.5 A, 750 W
N5748A	System DC Power Supply	80 V, 9.5 A, 760 W
N5749A	System DC Power Supply	100 V, 7.5 A, 750 W
N5750A	System DC Power Supply	150 V, 5 A, 750 W
N5751A	System DC Power Supply	300 V, 2.5 A, 750 W
N5752A	System DC Power Supply	600 V, 1.3 A, 780 W
750 W Models		
N5761A	System DC Power Supply	6 V, 180 A, 1080 W
N5762A	System DC Power Supply	8 V, 165 A, 1320 W
N5763A	System DC Power Supply	12.5 V, 120 A, 1500 W
N5764A	System DC Power Supply	20 V, 76 A, 1520 W
N5765A	System DC Power Supply	30 V, 50 A, 1500 W
N5766A	System DC Power Supply	40 V, 38 A, 1520 W
N5767A	System DC Power Supply	60 V, 25 A, 1500 W
N5768A	System DC Power Supply	80 V, 19 A, 1520 W
N5769A	System DC Power Supply	100 V, 15 A, 1500 W
N5770A	System DC Power Supply	150 V, 10 A, 1500 W
N5771A	System DC Power Supply	300 V, 5 A, 1500 W
N5772A	System DC Power Supply	600 V, 2.6 A, 1560 W

1. Customers who selected the Linux option will experience a longer boot-up time of up to 90 seconds.

Options

750 W models

Part Number	Description
Opt 900	Power Cord, United Kingdom
Opt 902	Power Cord, Europe
Opt 903	Power Cord, USA, Canada
Opt 918	Power Cord, Japan
Opt 922	Power Cord, China
Opt NGP	USB & LAN only (No GPIB Interface)
Opt OSL	Operating System, LINUX (Only applicable for NGP)

1500 W models

Part Number	Description
Opt 861	Unterminated Power Cord, USA, Canada, Japan, China, Other
Opt 862	Harmonized Unterminated Power Cord, Europe
Opt NGP	USB & LAN only (No GPIB Interface)
Opt OSL	Operating System, LINUX (Only applicable for NGP)

Accessories

Part Number	Description
N5740A	Rackmount slide kit (Required for rack mounting; standard system 11 rack-mounting hardware will not work)
